Who we are:

Our vision is to inspire the next generation of business leaders, disruptors and changemakers, helping to create a generation of business savvy and financially competent Kiwis.

What we do:

YES works with schools, students and educators across New Zealand to provide authentic learning experiences to develop work-ready and life-ready skills in young people. Our flagship programme is the Young Enterprise Scheme, where senior secondary students set up and run their own business, operating with real profit and loss.

[FIND OUT HOW YOU CAN GET INVOLVED...](#)

There are so many ways in which you can help out:

Through this programme alone we work with over 4000 students every year, so as a small NPO, we need all the help we can get!

That's where you come in...
