

Muesli Bar Promotion

During lockdown, totara students worked on a project; they had to make a recipe for muesli bars that was proven to be healthy and didn't cost much to make. We were wondering if people would like to buy them for their child's school lunch. We were wondering how much you were willing to pay for a muesli bar.

Muesli bars are proven to be very healthy for your immune system, can be consumed for energy, and contains zero plastic wrapping

(Warning, muesli bars may cost up to \$1000 dollars, BE
WARNED!!)
