

Audio Books

Here at Queenspark School we are having a trial period for audio books through our eBook Platform. The trial is until September 30th 2018. Please watch the video which shows how to access and borrow the audio and ebooks.

Listening to audiobooks is great, there are lots of advantages/benefits;

- the pronunciation is correct, although sometimes it comes with an accent
- your hands are free to do other things, draw, lego, make dinner etc
- you can listen to stories above your reading level as it is just like having someone read you a book.

If you would like audio books but do not have internet access or devices we have a selection of audio books on CDs and Playaways (preloaded MP3 players) available from the library.

**If you have any questions please contact
