

Educational Assessments Wellington,

Young people can struggle with learning for a myriad of reasons, and consequently, it can be expressed in their behaviour, emotional regulation, motivation and more! We know this can be a very confusing and often challenging space for young people and their families to navigate.

If your child is struggling at school, a comprehensive learning assessment may provide you with a clear understanding of what is getting in the way of them reaching their learning potential. Our learning assessments can identify:

- **Specific Learning Disorders**
- **A broader cognitive impairment such as an intellectual disability**
- **Specific emotional or behavioural difficulties.**
- **Gifted and talented learners**
- **Special Assessment Conditions.**
