PRIMARY SCHOOL

Kaikorai Primary School

Strategic Plan 2018 - 2020

Overview

Kaikorai School provides an environment in which children continue to develop a love of learning and respect for others. Learning at Kaikorai School is based upon a conceptual, inquiry approach. We want learning to be relevant, engaging and integrated across the curriculum.

Flexible learning spaces enable social and collaborative learning, integrated curriculum delivery, a mix of teacher-directed and student-directed teaching and learning, project work and

relationship building. The spaces that are being designed and built over the next three years will be configured in ways to suit the learning needs of the students.

Kaikorai School is committed to being a leader in Science, Technology, Engineering and Mathematics (STEM) education in Dunedin. Our commitment to STEM concepts includes a strong professional development programme for teachers, dedicated learning spaces and access to high-quality resources.

Mission Statement

To provide an environment in which children continue to develop a love of learning and respect for others.

Vision

Happy, confident, lifelong learners.

Values

Kind: To resources, the environment, yourself and others.

Aspiring: Be a thinker, life long learner, the best you can be.

Independent: Work hard, make good decisions, look after belongings.

Keen: Be confident, try new activities, make new friends.

Strategic Goals

Resources / We will:

- Invest our resources into the remediation and redevelopment project to ensure the physical spaces, furniture and equipment enable and support the school's pedagogy.
- Secure the funding required to deliver the agreed remediation and redevelopment project brief.
- Invest our financial resources into innovation and responsive learning programmes that improve student learning.
- Ensure the school is financially sustainable after the remediation and redevelopment project.

People / We will:

- Equip our students with future focused digital skills and attitudes so that they may be successful lifelong learners.
- Promote, encourage and provide a high standard of teaching.
- Support our staff by providing access to professional development that supports the transition into Innovative Learning Environments (ILEs).

Learning / We will:

- Target a success rate of 80-90% achievement in the essential areas of literacy and numeracy.
- Students will develop increased ownership of their learning.
- Provide accelerated learning for children with identified learning needs.
