YOUNG AT HEART GROUP

This monthly get together for our older community members will resume on Friday 7th August at the Culverden Fire Station from 1pm - 4pm. Any queries please phone Yvonne Cheney 315 8017.

THE LOTTERY BUSH CONSERVATION GROUP is hosting a Community Information evening on Tuesday 30th June at 6.30pm - 8pm, Waiau Community Hall.

The Lottery Bush is a 55 hectare Department of Conservation reserve located between the Wandle Bridge and Mt Lyford Village accessed from the Inland Road.

Lottery Bush Scenic Reserve is an old-growth mixed native beech and podocarp forest that also provides habitat for threatened species, which is rare in the Canterbury region. Historically, Lottery Bush was an area traversed for travel, trade and access to mahinga kai.

Protecting this forest remnant is critical in creating a biodiversity corridor and link with other remnant forest areas and is a very high priority for the Department of Conservation.

The vision of the Lottery Bush Conservation Group is that 'Lottery Bush is a local treasure, an area valued for its "untouched" natural beauty and pest-free status. It is a space for children and adults alike to learn about our environment and watch as it triggers an expansion of our native landscape.'

Everybody is welcome. We are a diverse group of people interested in the conservation, preservation and biodiversity of the Lottery Bush for the community.

If you would like to learn more about this significant area and/or interested in participating in this work, please come along. charlottehastings@gmail.com

Reading Together Workshop

Dear Parents of Amuri Area School

Following on from our three very popular Reading Together Courses we would really like you to consider taking part in our **Reading Together** workshop programme for parents. I am sure you will find it of great help for yourself and your child(ren), as you support their education. We all know how important reading is for children to succeed. One of the things that really helps children to become good readers is support from home. The **Reading Together** workshops will show you best how to do this. A huge number of parents nationwide have already attended these workshops and found the programme very helpful, indeed we have already run three very successful workshops here at Amuri Area School.

The programme consists of **four** workshops – each 1 hour and 15 minutes. **To make the most of this opportunity it is important that you attend all of the workshops if you can.** At this stage we are planning on having the workshops on a Thursday evening, but recognise that this term or this day may not be convenient for everyone. For that reason we are wanting you to phone the school and register your interest and tell us what evening would suit you.

The programme is **FREE!** We can even help with childcare costs if you need it and it will **REALLY** help your children to become much better readers. In particular, it helps children to **UNDERSTAND** what they are reading, and helps you to form strong bonds and make reading a positive family experience.

Please see <https://www.readingtogether.net.nz> for more information and the significant positive research on this programme. We are looking forward to your participation.

Please register by calling our school office or e.mailing alison@amuri.school.nz. Should you need further information I will be happy to answer any questions you may have.

Yours faithfully

COVID-19 Patient Experience Survey

You may be randomly selected to take part in this important survey about your health experiences over the last few months. This is a national incentive post the COVID-19. The pandemic has changed the way health care has been delivered and your feedback will help us understand and improve patients' experiences.

This voluntary survey should take around 10 minutes to complete, depending on your answers.

Your responses are anonymous and will not be connected to you in anyway. Please be open and honest in your answers.

This survey will look at health care since the COVID-19 lockdown began in New Zealand.

It does not matter whether you accessed any health care during this time, all feedback is still relevant.
