

# ReCycle ReCreate Fundraiser Order Form

Students Name: \_\_\_\_\_

Class \_\_\_\_\_

Every small piece of the puzzle adds up to a big, cleaner brighter future for generations to come.

That's why we invented our range of 'BAGS NOT Plastic®' bags. We are using product destined for the land fill and giving it a new purpose. If we have to use new materials (very rarely) then we look for sustainable eco-friendly product. No bag is the same, sizes and materials may vary slightly as we try to get the best from materials available.

Products can also be viewed online at  
[www.recyclerecreate.today](http://www.recyclerecreate.today)  
Facebook/Instagram: Recycle Recreate

## Sandwich Bags

**Kapow!** Sandwich bags are awesome, they are a great alternative for those who don't like wax wraps. Bags are approx. 19cm x 19cm. (we try to get the most we can out of our materials so may vary slightly) A variety of materials to choose from. Our Marvels/Dr Who/Cat range is made from a new outer material to encourage people to change from single-use plastic to reuseable.

So **Exterminate! Exterminate!** That single-use plastic now. Great for adults too ;-). The rest of our range ("other" on order form) is made from recycled or deadstock/remnant materials and will be random. The inside is deadstock/remnant nylon that is showerproof to keep your sandwiches from leaking.

## Snack Bags

Same as our sandwich bags but smaller snack size. (13cm x 9cm approx.)

Can also be used to put treasures, keep-sakes or money in.

# Produce Bags

Our 'BAGS NOT Plastic®' produce bag packs come in a 3 pack, **contain 1 large and 2 medium** and are made from recycled tents, destined for the tip. Along with any light weight fabric/mesh we can source, to keep your weights to a minimum on the check out scales and fold up small enough for your purse or bag.

**Medium Produce bags**  
Top made from **recycled** lightweight material. Bottom made from **recycled** tent material  
Aprox size 26 cm x 23 cm  
Strong double drawstring

**Large Produce bags**  
Top made from **recycled** lightweight material.  
Bottom made from **recycled** tent material.  
Aprox size 43 cm x 28 cm Strong double drawstring.

# Cutlery Wraps

Our 'BAGS NOT Plastic®' Cutlery wraps are made from recycled/offcuts of material, with recycled cutlery and a homemade serviette. The chopsticks are new and made from bamboo. The wraps are available with or without cutlery so you can add your own and enough room for you to add in your own reusable straws too. Great for taking to work, in your car or hand bag, man bag or tool box ;-)  
Ideal for lunch on the run or an impromptu dinner out, removing the use of single-use plastic cutlery.
