

Every Minute Counts!

8:30AM	Arriving before class starts means getting settled and ready for class
8:45AM	Less likely to be ready to learn, likely to be late to class
8:46AM	Arriving late means the start of the lesson could be missed and is likely to unsettle the class
8:50AM	5 minutes late a day means missing 3 days over a school year
8:55AM	10 minutes late a day means almost 7 school days lost a year
9:00AM	15 minutes late a day means almost 10 school days lost a year
	Arriving very late is recorded as an absence
Students that are late miss out on learning and can be a disruption to the classroom. If a student regularly late it will affect their learning at school.
