

Kākano Assembly

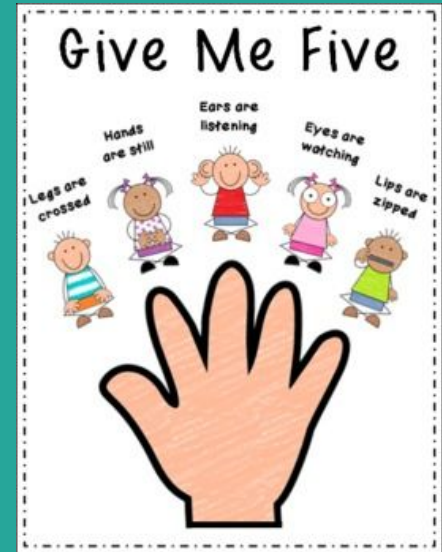

Hosted by the Year 2 (Red) Hub

Assembly Focus:

Listen Respectfully

Sit Quietly

Welcome to School certificates

Mihi

Tohora Nui

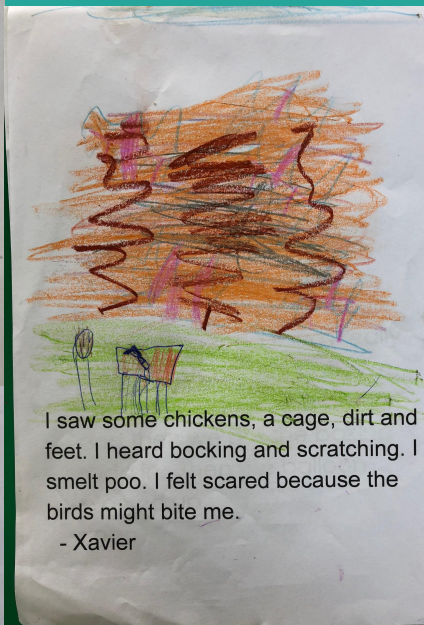

Whiore koropiko
Poaka hongihongi i te paru e!

Writing

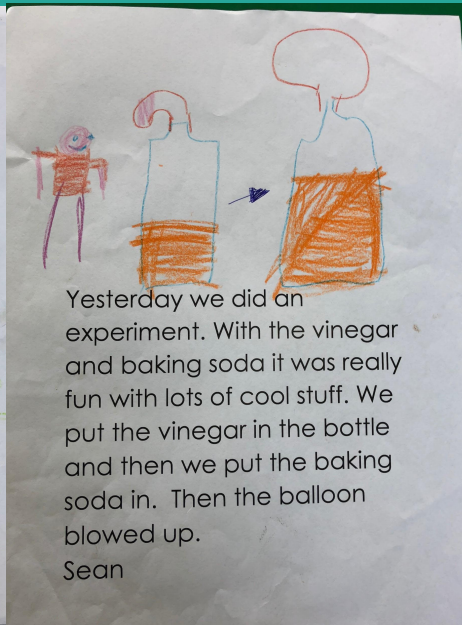

I heard the balloon blow up, I heard bubbles. I see bubbles, balloon blowing up. We put baking soda in the bottle, vinegar in the bottle too. The balloon blew up. I felt excited. I felt fun. We used a funnel, bottle, vinegar, baking soda in the bottle. We all had fun. I was thinking it was going to pop! But it didn't Pop! Some people put vinegar in the bottle. I heard fizzing, some big fizzing. I saw the big balloon.

George

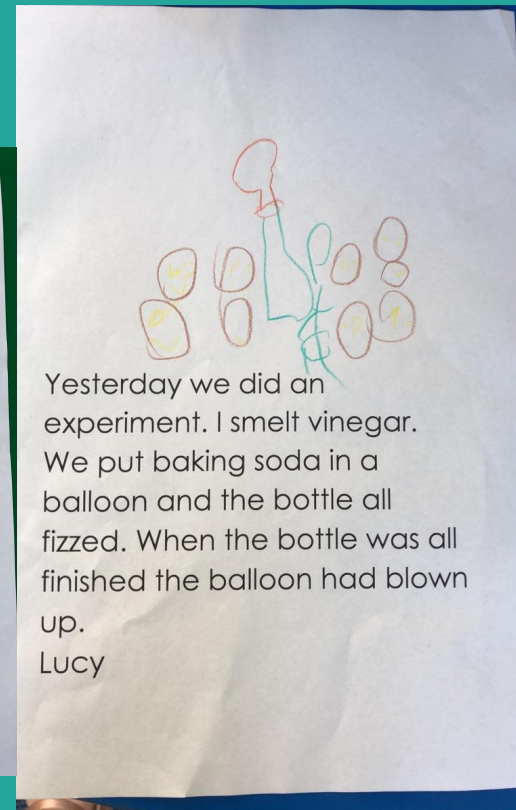

I saw some chickens, a cage, dirt and feet. I heard bocking and scratching. I smelt poo. I felt scared because the birds might bite me.

- Xavier

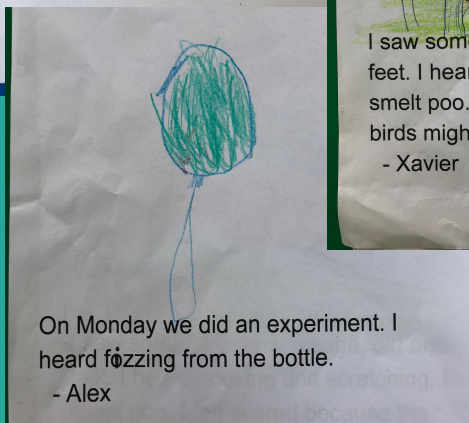

Yesterday we did an experiment. With the vinegar and baking soda it was really fun with lots of cool stuff. We put the vinegar in the bottle and then we put the baking soda in. Then the balloon blew up.

Sean

Yesterday we did an experiment. I smelt vinegar. We put baking soda in a balloon and the bottle all fizzed. When the bottle was all finished the balloon had blown up.

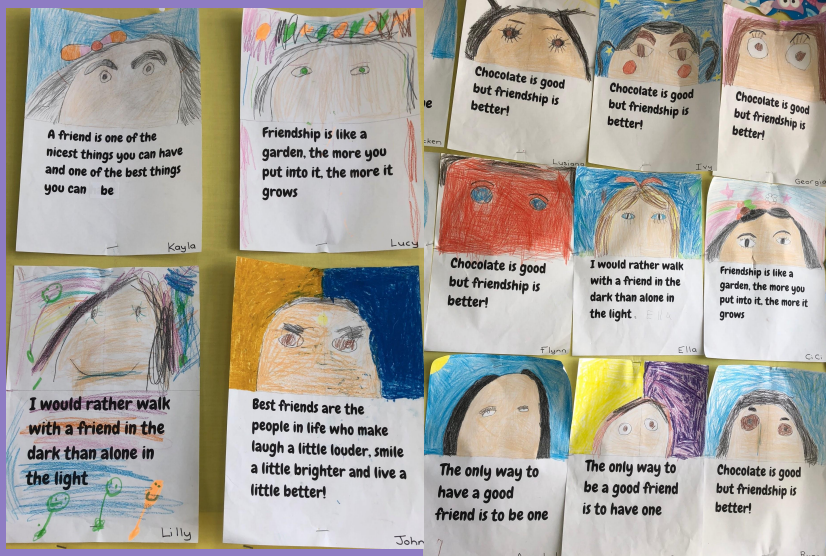

Lucy

On Monday we did an experiment. I heard fōzzing from the bottle.
