christian blind mission

Help restore hope & dignity today.

After a traumatic childbirth, Faith felt a loss of dignity and helplessness caused by her obstetric fistula.

With a tear in her birth canal, the obstetric fistula allowed bodily waste to escape uncontrollably, causing her to smell.

She became depressed and isolated.

Faith's homeland of Nigeria has some of the world's worst health conditions for mothers and newborns.

There are many mothers like Faith facing decades of daily misery, shame and humiliation, but your generosity can set them free from obstetric fistula!

Your gift will be helping mothers who cannot earn enough to pay for the surgery they need, and will be generously blessing heartbroken mothers, like Faith, who are living with the smell, shame and isolation of obstetric fistula.
