

My Three Stars and a Wish

Matariki is a time to get together and celebrate with family and friends and plan for the year ahead.

Maths is an area that I've gotten much better at. At the start of the year I didn't know much about fractions. Now I know how to add fractions, and change them into proper fractions and improper fractions. I also have gotten better at doing algorithms and adding them up faster.

I'm really improving in my writing. I've gotten much better at using paragraphs when I write and I'm also using better vocabulary related to the topic. I feel really confident when I write and I always like to express my feelings.

In spelling I've gotten better at doing buddy testing. I'm improving way more than I was at the start of the year. Even though I'm not in the highest spelling group, I still try my hardest and get better everyday.

This year I really want to get better at knitting. At the start of the year me, Abigail and Zoe were absolutely HORRIBLE but practice makes perfect. Knitting is something I really want to give a go. My goal this year is to knit a scarf or at least a square. If I did, I would be really proud of myself.

This year I felt like I've really improved in my learning. I feel like I've learnt a lot and I'm really proud of myself. Mrs Blomfeild has taught me so much this year, now I know so many new things in every subject.
