

## **MINECRAFT CHALLENGE 2023**

On 9th March, eight of our Year 5 and Year 6 students participated in the Design the Future: Whangaparāoa 2050 Minecraft Challenge at Whangaparāoa College. It was a fabulous day out and despite some initial technical niggles, the students were hugely impressive with their ability to work as a team and to use their creativity and problem solving skills to create epic Minecraft builds. One group was tasked with coming up with sustainable housing, while the other group had to design a futuristic hospital. Both builds were detailed, superbly executed and expertly presented on stage in front of all the attendees. Ka pai to all the participants for challenging themselves and for showing an incredible amount of resilience under pressure.

They did Gulf Harbour School proud and the organisers of the event were totally impressed!
