

20%  
off frames, lenses  
& sunglasses.

# Vision in Schools

80% Of learning is visual. Sight is a crucial part of a child's development. Problems can impact development & learning skills. We want to support students to be their best as part of our Vision in Schools programme.

If you've noticed your little one's having learning or reading difficulties, or you have any other concerns about their vision, come & chat to our team. You'll receive 20% off frames & lenses for the whole family ... just bring this flyer in.
