

# Your Career Starts Here

## Kauri Mechanical Apprenticeship

### About the role

When you become an apprentice at Fonterra, you are in a paid role with fully funded learning while training with one of our highly skilled trades teams, under the care of a mentor and an external training advisor. Your apprenticeship lasts between 2.5 to 4 years depending on the field you want to qualify in.

While at work you'll complete practical on-job learning while theory work is completed on-line or in a class outside of work. Our apprenticeship programs start with a great on-boarding experience welcoming you to Fonterra. So, no matter where you are, you will be assigned a technical mentor who will help guide you through your qualification.

And as the cream on the top, you will become an integral part of keeping Aotearoa's biggest business 'Good Together'.
