Covid Vaccine information

The Covid Vaccine will be free for everyone regardless of your residency or citizen status.

The vaccine teaches your immune system to recognise and fight off the virus, it does not contain the virus, it cannot alter your DNA, it cannot give you the disease.

All COVID-19 vaccines go through the same safety steps to meet robust standards, there have been no shortcuts.

Medsafe (NZ Medicines Safety Authority) have granted approval for the vaccines use.

The vaccine will be rolled out in groups we will advertise when and where you will be able to receive the vaccine.

Any questions please call Amuri Health and discuss with the practice nurse.

Patient Surveys

Patients are contacted via a random selection process every three months to participate in a Patient Care Survey for patients over the age of 15 years, conducted by the Health Quality & Safety Commission New Zealand.

Patients are contacted by email and offered the opportunity to partake in the survey.

The information gathered is used to monitor and improve health services for the benefit of patients, so feedback is very important. Please let us know if your email address has changed or needs to be updated.

It would be great if you are able to make time to complete the survey if invited, it could improve health services for yourself and others.
