COMMUNITY NOTICES

Is your RAPID number correctly displayed?

Emergency services need to know where you live easily and quickly, RAPID numbers make this possible. Is yours correct?

RAPID numbers are vital for emergency services and are still used as the primary means of locating properties.

Hurunui District Council (HDC) has partnered with Fire and Emergency New Zealand to highlight the importance of a robust RAPID numbering system for the safety of you and your families.

Your RAPID number should be...

- Reflective and bold.
- Fixed on the gate post at the property entrance from the road.
- Visible and clear of vegetation.

If you have multiple dwellings...

- Each dwelling should have its own number displayed.
- And more than one dwelling is accessed off the same point on the road, an alpha suffix should be used for each dwelling and on-site directional signs may be required.

For more information, or to order your RAPID number, visit the HDC website hurunui.govt.nz/property-rates/rapid-numbers

Rural Property Fire Safety

- Don't light fires if strong winds are expected
- Check old burn sites are completely out so that strong North Westerly winds don't cause a fire to flare up!
- IF old burn sites aren't fully out when fire restrictions start, you **need to apply for a permit** or put it out completely

Keep a close eye on the Fire Notice Board in front of the Fire Station

Visit - www.checkitsalright.nz for an update on the fire season status and/or if you need a permit. Real time fire danger and fire season data is also now available on all rural and urban forecast pages on www.metservice.com

Rural homes are at greater risk of fire. Ensure you create a **Safety Zone** around your home where vegetation has been cleared/reduced to create a barrier against a fire spreading to your home. Visit <https://checkitsalright.nz/reduce-the-risk/safeguarding-your-property> for more information on how to reduce the risk of fire.
