

Elements

Nature based play

Elements provides a truly authentic outdoor experience for children. Active movement, creative play & fun! This summer we have a variety of programmes in Christchurch including two specifically designed for older children. Learn new skills such as using pocket knives, rope & possibly fire. Hang with like minded peers and awesome leaders. Also time to explore, climb trees, group games in open spaces. Or challenge your construction skills with Elements resources. Crafting opportunities too. Check out our facebook pg or website to see what we do.
