TWIZEL Kindergarten

2-5 Years

www.sck.nz

Literacy and numeracy are integrated throughout our programme in a meaningful way.

Children have fun and delight in the company of others.

Whanau/family are invited and welcomed to share their interests and skills with our children.

Children are involved in growing and harvesting food in our Whanau/Family garden.

Children have many opportunities to participate in dramatic play with their friends.

Teachers work and encourage children to explore, investigate, wonder and give things a go.

Children's physical development is promoted and challenged in the kindergarten's large natural outdoor environment.

Children's interests and passions are nurtured and extended on.

Twizel Kindergarten Moemoea

A unique place where tamariki learning is enriched through diverse learning pathways in which they build a connection with the environment and the community, and feel a sense of turangawaewae to this place

What makes us unique?

At Twizel Kindergarten we are surrounded by mountains, Aoraki Mount Cook is at our doorstep. We are a hydro town and proud of our history and how the town survived after the dams were built. Twizel is a growing community and we embrace all it has to offer. Children regularly visit the local area school and we offer a regular nature discovery walk and tend to our plot at the community garden.

We place high importance on sustainable practice including recycling, reducing waste, composting, worm farming and water catchment in water tanks as well as wicker garden beds. We are an Enviroschools Kindergarten.
