

Additional Emergency Contacts

Thank you for your emergency contact details, we need these to contact you.

The Ministry of Education has reviewed all school's emergency procedures due to recent events and has recommended students have 5 or more emergency contacts, in addition to the students' parents and caregivers. This is in case there is an emergency and we are unable to contact you, or if you are unable to collect your child from school, we have someone you have authorised to pick your child up in your absence.
