### Seminar Content

In this seminar our content will cover:

- Children need adults who show they love them to help them survive and thrive
- What happens to a child can help or get in the way of their healthy development
- The way in which the brain develops is influenced by the experiences children have and shape the way we think feel and behave
- Every day there are opportunities to help children reach their potential
- Adversity in childhood can have short and long term effects

### About Brainwave

Every childhood matters. That's why we speak up about the importance of brain development in the early years. Brainwave's vision is that all children in Aotearoa New Zealand are valued and nurtured so they can reach their full potential.
