

Timaru Technology Education Centre

These resources are to provide you with activities and challenges you can engage with in the comfort of your own home that will be challenging, stimulating and fun.

Take care, be safe, be kind, be tolerant and follow guides set by the Government and all will be well.

See you at TTEC soon hopefully.

TTEC Staff

The Challenge	The Links	The videos	The teachers input
Try coding a Story Start by opening scratch. Go to the question mark on the far right hand side and select "Create a Story". Try coding the Story. Remember to make a story about something you are interested in..	Or you can use this link for the online version of Scratch https://scratch.mit.edu/projects/editor/?tutorial=getStarted Look in the tutorials and try coding "Create a Story"	Check out this link to "Hardware and Software" in a computer https://www.youtube.com/watch?v=xnyFYiK2rSY&list=PLzdnOPI1iJNcsRwJhvksEo1tJqjlqWbN-&index=6	When coding "Create a Story" we learn to make things happen and move in a sequence one after another. For an extension - Can you add an extra scene so that the characters move to a different background or part of the story. Can you make a story with two different endings.

Teacher feedback

Have fun making your own story. If you have a Scratch account remember to share it online. Add some fun parts to your story.
 Remember to use the 20/20/20 rule for your eyes Every 20 minutes take a break for 20 seconds and focus on other things 20 metres away.

Inspirational video	Interesting video for the day
Here is a video tutorial from Pixar on how to get ideas for a good story https://www.youtube.com/watch?v=u8CpDHJuyF4	The interesting video is not a video but a Google code challenge using their Google doodles. https://www.google.com/logos/2017/logo17/logo17.html?hl=en
