Why us?

- **Customisation** – The teacher's curriculum plan and teaching methods are designed and adjusted according to each student's learning habits. We also carry out regular targeted work based on student needs.
- **Small Classes** – Maximum 10 students in each class. Small classes give our enthusiastic teachers opportunities to stimulate every student's interest in learning through a variety of exercises and activities.
- **Experienced Teachers** – The teaching staff are English native speakers. They are very experienced - having taught ESOL for an average 25 years in NZ and abroad. They are highly professional and understand teaching theory and methodologies.
- **Excellent Resources** - We use a variety of up-to-date course books which are appropriate to each level. Our teachers also develop their own original materials to match the needs of our learners and to provide us with flexibility to meet the individual students' exceptions.
