Year 7 and 8 Technology Provision in Christchurch East School Technology Centre

Newsletter Issue 2023 Issue 3

Kia Ora Koutou!

A special Learning Celebration took place on 15 May 2023 where the Year 7 and 8 students came together to display their learning outcomes and share their learning journey with one another. The twofold purposes of this occasion were:

- To celebrate students' success with others.
- To inspire students before they move to the next context area.

we made some flat bread last monday

it was our first time cooking this year it
was so fun and its was so yum

Last monday we made spring rolls. im not really a spring roll kind of person but they were really good.

At the end of every cycle, we reward students who exemplify Cool Factor qualities in their learning. A photo of some of the students who have been awarded the Cool Certificate Certificates in Cycle 1 is given below:

The Cool Factor qualities that teachers look out for in students' learning include Sense of Community, Integrity, Equity and Excellence. For Mrs Mayo, she often rewards students who put in the hard

yards with a sophisticated design in their main outcome. For Mr Poole, he will be looking for students who aim for excellence and do not hesitate to learn new skills at the workshop. Mr Hodges often reminds students that his selection is based on students who “do the right thing at the right time”. It is possible to win the Cool Factor certificate in more than one cycle.

Finally, I would like to wish everyone a restful time in the first ever King's Birthday public holiday on 5 June 2023.

Ngā mihi nui
