

Thank you

To Kaiapoi high school.

Thank you so much for about a week.

All the students and teachers at Kaiapoi School were very friendly and kind, so we could spend very fullness and fun time!

The class was very interesting and fun! I was particularly impressed by the class in which we made key chains out of plastic. The key chains we made are kept in a safe place!

Other experiences included planting trees, reading books, and much more. They are all precious memories.

I want to thank the teachers who taught the classes, my buddy who told me a lot about the school, and the students who talked

to me. I would like to go back to New Zealand!

Thank you so much for the week!

Yuzuki
