

2023 iPad Recommendations

Kia ora e te whanau,

Apple iPads are a requirement for learners at Ormiston Junior College. iPads are a fantastic learning tool which provides creativity and collaboration for learners across the school and the experience of using current, world-class technology.

Below are minimum requirements for iPads. Any additional features (like iPad Pro) are acceptable and will be able to be used at OJC.

iPad 10.2" (minimum 9th Gen)

64GB is adequate. OJC provides free 200GB of iCloud storage for students.

We have found in the past that iPad Mini, while useable and accepted at OJC, the screen size can be limiting to students. We don't recommend iPad Mini, but are happy to accept them.

Apple provides free engraving on iPads, which can add an extra layer of security.

Apple Pencil (1st Gen) - an Apple Pencil is a requirement for learners

Case

We have found the **STM Dux Plus Duo Case for iPad** to be a great case and has space for Apple Pencil storage too.

If you have any questions or queries on iPads at Ormiston Junior College, please contact Andrew at the email below.

Kind regards,
Andrew Bell
