

The Peril

Published by Amuri Area School – (03) 315 8233
Email: theperil@amuri.school.nz

Friday 16th July 2021
Issue: 2021:25

Advertisements for insertion can be e-mailed to the above address (with a billing address provided) or left at the Amuri Community Library. Closing day and time for both is 4pm on Monday. When there is a Public Holiday on a Monday the deadline will be extended to 4pm the next day (Tuesday). Regular advertising by arrangement.

Emailed classified ads (not businesses/community groups/clubs) will need to be paid **IN ADVANCE** directly into our bank account by close of bank business on a **MONDAY (Tuesday when there is a Public Holiday)** for the ad to appear that Friday (20c per word - minimum \$2). If there is no payment received the ad **WILL NOT** appear that week, ie **NO PAYMENT, NO AD**.

Payment in advance does not apply to regular advertisers eg businesses/community groups/clubs who are invoiced.

Advertising Costs: Classified and Community Ads: 20c per word (minimum of \$2)

Businesses: Full Page \$50, ½ Page \$35, ¼ Page \$25, ⅓ Page \$20, 1/16 Page \$15. If you require an ad to be designed this will incur a \$10 fee (businesses only). All GST inclusive.

Payment made at the Library is cash or cheque only (payable to Amuri Area School) – no EFTPOS.

ASB Bank 12-3616-0057391-01

Please quote your name as a reference.

This account is for PERIL PAYMENTS ONLY

Toberhead Dairies

Calf Rearer/ Farm Assistant

We are looking for someone to help during calving on our 500 cows farm on a fixed term contract. Jobs would include but not limited to, feeding calves, milking, dusting paddocks, setting breaks and keeping the calf sheds clean and tidy to ensure healthy calves. The successful candidate will be part of a team of 4 and live on farm with shared accommodation.

Our farm is located 5 minutes south of Culverden.

The position start date is negotiable but ideally around late July.

Please contact Colm by phone (0225970295) or email (toberheaddairies@gmail.com).

Looking forward to hearing from you!!

Casual Staff Required over Spring – Disbudding Calves

Work is Culverden based. Stock handling/dairy farm experience is an advantage but not essential as full training is provided.

Applicants will need to have their own transport and NZ working visa.

Please phone/email Sarah for more details - 0278899108 or sarahm@ncvets.co.nz

Covid Vaccinations Update

Please refer to Amuri Health's full-page advert for more detailed information regarding the covid vaccination roll out.

We will continue to keep you in the loop as more information comes through.

The Team at Amuri 😊

Respiratory Virus

We have a lot of unwell youngsters in our community at the moment.

Please remember to keep yourself/kids at home if are unwell with respiratory symptoms. Respiratory viruses like the RSV virus are highly contagious for up to 8 days and can turn to pneumonia and bronchiolitis.

The under 2 year olds are particularly vulnerable and to protect them we need to isolate those who are unwell, reducing contact with them as much as possible.

Not all children will need to be seen or assessed by our clinicians as this can potentially spread the viruses further.

Keep unwell children at home, warm, well hydrated and rested. Call Amuri Health Centre if you have any concerns or for further advice 03 315 6328 to speak with a practice nurse.

Covid-19 Vaccination Update

Thank you for your patience as we navigate the paperwork and logistics with this vaccination rollout!

We are pleased to be able to offer this vaccination service at our health centre and we are well under way with our vaccination and recall process.

We are currently well and truly progressing through our Group 3 population.

ALL over 65 year olds should now have been invited to book for their vaccination. We have, this week, begun inviting our community with **Chronic 'at risk' health conditions**, to book for vaccination, and **the remaining of these will be contacted this week**. This will mean **ALL GROUP 3 in the Amuri community will have been reached for vaccination in the very near future**.

If you have missed out on a text message or letter regards this and feel you should have been considered, please give us a call to let us know so we can discuss this further & book you in if appropriate.

This has been a very time-consuming process for our staff, and we have endeavoured to keep the community as updated with our progress as we can. We have appreciated your support and understanding in this.

Below is a table outlining the Covid-19 Vaccination Roll out process as per the Ministry of Health. Amuri Health Centre is now completing Group 3B/C.

Group	Definition	Approx Numbers
1a	Border Control, Airline & MIQ workforce – <i>(well underway)</i>	15,000
1b	Family members and household contacts of group 1a – <i>(underway)</i>	40,000
2a	Frontline healthcare workers (non-border) with risk of exposure to Covid-19 in providing care – <i>(due to commence soon)</i>	57,000
2b	Frontline healthcare, hospital, emergency service, and government organisation workers who may expose vulnerable people to Covid-19	183,000
	At Risk people living in settings with high risk of transmission – Those within Counties Manakau Health Board, Long-term residential care, older persons living within shared whanau environment	234,000
3a	People over 75 years not included in group 2	317,000
3b	People over 65 years not included in group 2	432,000
3c	People with underlying/chronic health conditions or disabilities	730,000
4	The remainder of the population	2,000,000

Strength from Adversity Workshop

HDLG will be holding 3 workshops to help members plan for – and recover from – adverse events. We have secured some outstanding speakers who will talk about turning a tough season into opportunity, future proofing, performing under pressure, making good decisions, and managing stress.

Topics covered include:

Immediate options for turning a tough season into opportunity. Scenarios for the next 12 months – including gross margins in the context of reduced stock numbers, big feed or grazing bills and really positive price forecasts. What can we do/grow/buy/graze to make the most of what has been a challenging autumn and turn it into an opportunity?

Speakers: Wayne Allen/Jansen Travis. Both Wayne and Jansen are both very experienced and highly respected farm consultants who operate in the North Canterbury region.

Future proofing for the next adverse event (drought, flood, snow, wind, fire, earthquake, death, injury). What systems do we need in our business, what has worked well, how can we pre-plan our responses to future adverse events? **Facilitator:** Joanne Stevenson, psychologist, principal consultant at Resilient Organisations and local farmer.

Performing under pressure/making good decisions/managing stress.

Speaker: John Quinn, expert high-performance sport and mental skills coach, well known for his work with High Performance Sport NZ, NZ Cricket and NZ Rugby including the Crusaders.

Dates and Times:

July 26: Omihi Hall: 3-6pm

July 30: Cheviot Trust Hotel: 3-6pm

August 9: Culverden Fire Station: 3-6pm

Spaces will be limited and refreshments offered so
RSVP essential;

HEALTH NOTICE - RSV Virus

In New Zealand there is currently an outbreak of the RSV virus. RSV is the most common cause of **hospitalisations** for lower respiratory tract infections for under two-year-olds, with influenza/flu admissions being much less frequent.

It **spreads rapidly** through droplets when someone coughs or sneezes.

Respiratory syncytial virus (RSV) infection

RSV spreads easily by contact with infected droplets of saliva or mucus.

Highest-risk populations

Young children, especially babies younger than 1 year
People with weakened immune systems

Symptoms

Begin 3 to 7 days after exposure

Fever	Wheezing
Runny nose or nasal congestion	Difficulty breathing
Chest congestion	Cough

Treatment

There is no specific treatment for RSV infections. Symptoms usually improve within 1 to 2 weeks. Antibiotics are not helpful for RSV infections.

Fluids

Medications to relieve fever or treat other symptoms, such as wheezing

Prevention

Cover coughs and sneezes.

Wash hands frequently.

Do not share cups or utensils.

Avoid contact with people who have a cold.

Please note antibiotics do not work on viruses so any child that has any of the above symptoms must not attend childcare until all symptoms have cleared.
