Living the Change explores solutions to the global crises we face today through the inspiring stories of people pioneering change in their own lives and in their communities in order to live in a sustainable and regenerative way.

Directors Jordan Osmond and Antoinette Wilson have brought together stories from their travels, along with interviews with experts able to explain how we come to be where we are today. From forest gardens to composting toilets, community supported agriculture to timebanking, Living the Change offers ways we can rethink our approach to how we live.
