

# MY REVIEW OF TERM 2

**By - Sophie Wright**

# Winter Sport

Term 2 was an awesome term. It was really exciting when I found out that I made it into the B team for hockey. When I had my first game of hockey, I was really nervous. We played on grass for our first game. We didn't win but that's not the point; we had fun and gave it a go.

## Passion project

I also really enjoyed passion project. I did a lot of passion projects. I made an infographic with a collection of short stories, and I made an infographic with Greer and Lily T. We made our own.

I also made sherbet for my first project.

And for my second project I made creative cookies. We were trying to make them look good but they didn't work out although they still tasted good.

# *Sherbet*

# Fitness

I really enjoyed fitness last term. I enjoyed the beep test. If you don't know what a beep test is, it is when you run from line to line when the speaker goes beep you run to the next line and if you don't make it to one line you are out. It is way harder than you think.

# Basketball Tournament

In term 2 there was a basketball tournament and I was the manager. Basically there is a boy's team and a girl's team. They versed other schools, and the boys' team came 4th and the girls came 1st. So that meatn the girls got to go to Canterbury's and verse other schools. But the boys don't get to go because they got 4th. Only top 3 teams go to the Canterbury champs
