

Is a game changer for our regions future.

FUTURE DREAMS

FUTURE EVENTS

FUTURE GAMES

Multi-sport Facilities

Fraser Park has been designed to meet the needs of a wide range of sporting codes. From league, soccer, softball through to cricket and various community organisations Fraser Park is set to take pride and place in our community. The playing surfaces will be a combination of natural and artificial grass, with the main ground sporting the latest in hybrid turf technology to not only maximise performance and adapt to various sports but also increase playing times, reduce game or practice cancellation issues and attract national games and coaches to elevate sport in our region.

Multi-purpose Function Centre

A new multipurpose pavilion is being built along the park's Church Street boundary. This will house a function centre - complete with a kitchen, bar, viewing areas and meeting rooms.

These facilities will not only be a comfortable place to view the game but also attract companies or community groups looking to host an event.

The additional on-site parking and central city and South Island location will ensure that the facilities are easy to access and use.

Excellent Spectator Viewing

For parents and supporters, side line support will still be an option, but so too will be a warm seat inside the pavilion. Outside, the park's existing Southern Stand will be partly demolished and modern seating for up to 1200 spectators installed. There will also be bench seating for 288 people immediately in front of the pavilion. The park's landscaping incorporates wrap-around embankments, which will create fun spaces for families to sit and watch their 'game changers' playing or out of town visitors to cheer on their favourite national sports team.

Development as at Oct 2023

Any level of support is greatly appreciated as we strive to make Fraser Park the best it can be.
