

ENGINEERING & FOOD TECHNOLOGY

School holiday events

We are holding two free events on our Palmerston North campus during the school holidays for Year 11-13 high school students. You will get hands-on experience working in our labs and workshops. The events would suit students studying maths and science who are interested to learn where these subjects could take them.

FOOD TECHNOLOGY AND CHEMICAL ENGINEERING EXPERIENCE DAY

Tuesday 18th April

Experience what it's like to work in our laboratories and food pilot plant. Meet our students and grads to get all your questions answered.

MECHATRONICS ENGINEERING EXPERIENCE DAY

Wednesday 19th April

Get hands-on experience in our workshops. Meet some of our students and see the projects they are working on.

To secure your place you must register via the QR codes. Places are limited!
