

Emergency Foster Caregivers needed for children and young people in Christchurch

Oranga Tamariki—the Ministry for Children is looking for foster caregivers to provide emergency care for children and young people in Christchurch.

Some tamariki have a tough start in life and we are required to place a child or young person in care after-hours. We need caregivers who are able to provide a bed in their home overnight or over a weekend.

Due to their circumstances, these children can at times display some challenging behaviours. If you are in the position to offer a nurturing home and treat these children as your own we need you!

You will become part of an amazing team and you will receive support, professional training, on-going advice and financial assistance. Most importantly you will be making a difference in a child or young person's life.

Call us today to discuss how you can support children in your community by becoming an emergency foster caregiver.
