

Identifying a Need for Speech and Language Therapy in Children

A workshop with Weedons School

Join us at Weedons School on Thursday 17th November from 7pm til 8.30pm

Topics covered:

- The difference between “speech” and “language”
- Supporting typical speech and language development
- Supporting disordered speech and language development
- Speech and language norms – what’s normal and what isn’t? How do I know if a child requires speech and language therapy?
- Speech and language therapy options in NZ and how to refer
- Time for questions

Handouts will be provided to take home with ideas for how you can support further speech and language development at home, and some specified handouts for those parents with more specific concerns too e.g. stuttering, speech sounds
