

Puberty

I woke up in the morning
I looked in the mirror
I got shocked
And I got a lot.
Little dots in my face.
Mum says,

A part of our lives that changes our body.
You get stressed out because you get dotty.
Pimples pop out,
You have to get washed out
Puberty is frustrating

You will get dirty
And you will get furry
You will be smelly
And so as Harry.
But it's time to change so
Don't be afraid
This is your future and don't
Be ashamed.

Puberty is time to look weird
But it doesn't matter
They will all go away.
So let your heart of
Embarrassment fly away.
