

**University is not the only  
option for smart students.**

**Qualified electricians are in high  
demand in New Zealand and  
internationally.**

**When you choose to become an Electrical Training Company apprentice you'll:**

Be employed and trained by the leading provider of electrical training and largest employer of electrical apprentices in New Zealand

Spend time on placement with different host companies across commercial, industrial and domestic sectors

Learn the electrical skills you need through on-the-job experience and off-job training

Be supported by the best mentors and tutors in the business

**Earn while you learn!**

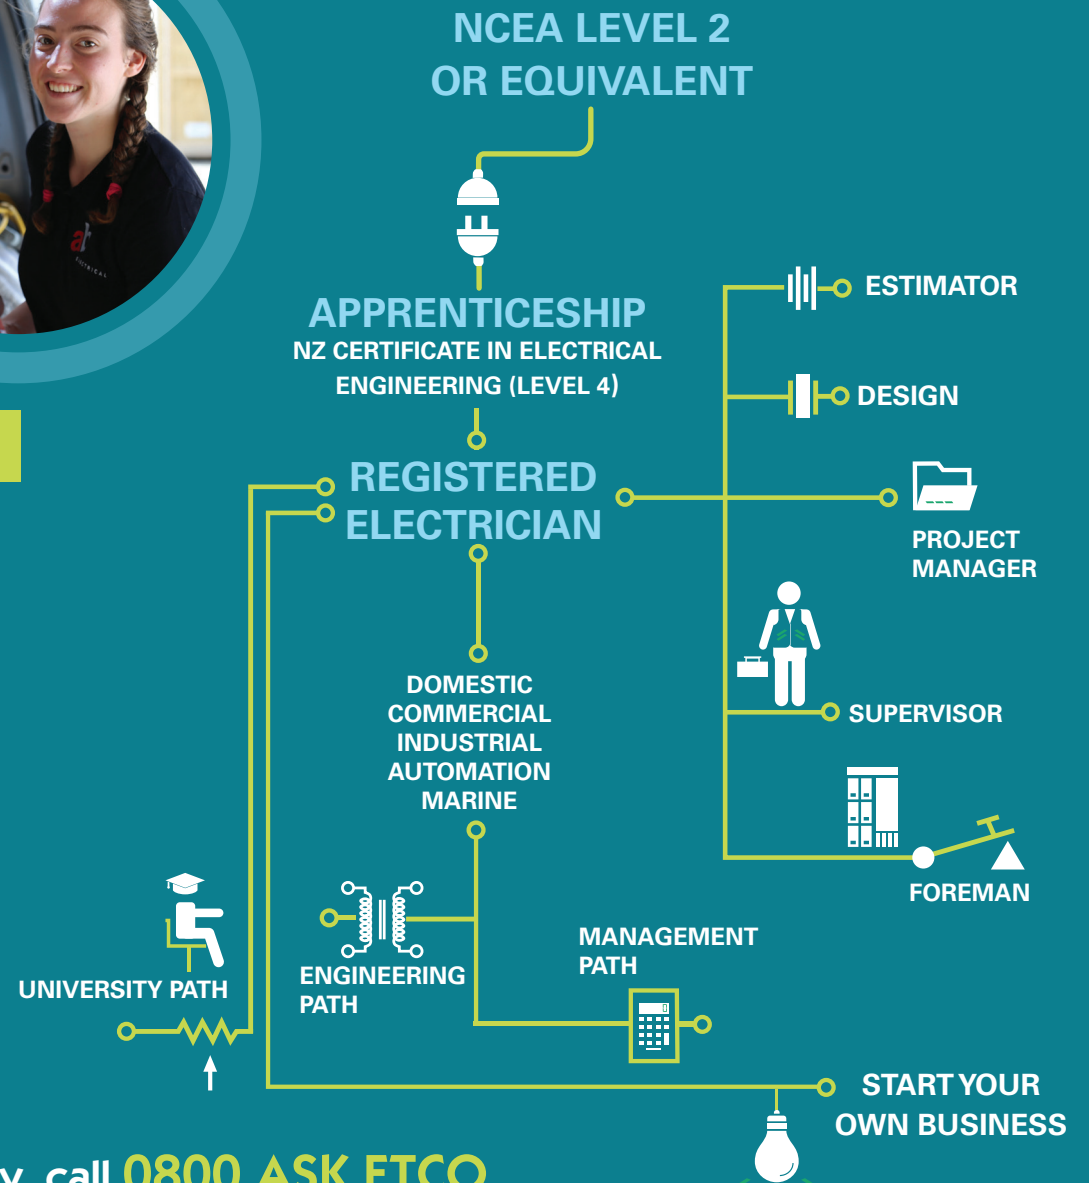

**No training fees, no student loan to repay!**
