

Teaching French Through Play & Songs

LWfC

The language workshop for children offers after school, enjoyable and efficient language classes using vocabulary building song, language immersion, festive visual aids and action games.

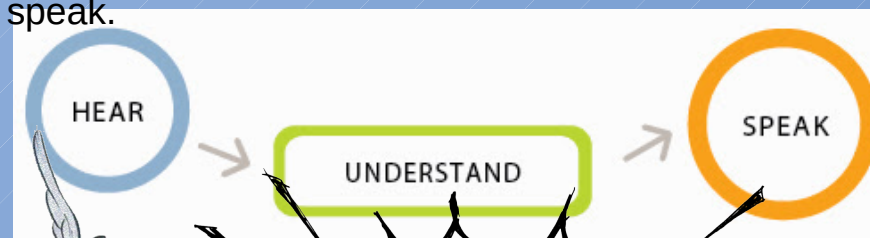

At The Language Workshop children are immersed in their new language through native speakers and learn to speak with a natural accent. Classes are limited in size, so each child can be nurtured and encouraged and feel less self-conscious.

**The workshop is design to
accommodate between 5 and 10
children from age 4 to 10
and 6 month to 3 years**

The Difference is in the Method

To the untrained eye LWfC classes resemble simple playgroups. The difference is The Thibaut Technique®, a whole language approach employing both sides of the brain. This method combines carefully structured curriculum and a child's innate love of play. LWfC structured playgroups let parents capture the window of opportunity years when children possess their greatest capacity to absorb and retain language. With The Thibaut Technique®, kids learn naturally, not by translating. First they hear, then they understand, and finally they speak.

**Call us, Deal
this good don't
last forever**
