

Cybersafety Agreement – All Students

This agreement lasts the duration of your schooling at Elmwood Normal School

The measures to ensure the cybersafety of Elmwood Normal School outlined in this document are based on our school values which are independence, collaboration, excellence, creativity and empathy.

The School's computer network, Internet access facilities, computers and other School ICT equipment/devices bring great benefits to the teaching and learning programmes at Elmwood Normal School, and to the effective operation of the School.

Our School has rigorous cybersafety practices in place, which include Cybersafety Use Agreements for all School staff and students.

The overall goal of the School in this matter is to create and maintain a cybersafety culture which is in keeping with the values of the School, and legislative and professional obligations. This use agreement includes information about your obligations, responsibilities, and the nature of possible consequences associated with cybersafety breaches, which undermine the safety of the School environment.

All students will be issued with this Use Agreement and once signed consent has been returned to School, students will be able to use the School ICT equipment/devices.

The School's computer network, Internet access facilities, computers and other School ICT equipment/devices are for educational purposes appropriate to the School environment. This applies whether the ICT equipment is owned or leased either partially or wholly by the School, and used on or off the School site.

The School may monitor traffic and material sent and received using the School's ICT network. The School may use filtering and/or monitoring software to restrict access to certain sites and data, including email.
