Residential Support Subsidy (RSS)

How do I set up an EGL Personal budget?

Complete a referral to EGL, then:

- Choose a Connector to work with
- Choose which Funding Host you want to host your EGL Personal Budget. Your
 Connector can help you choose the host that suits you best
- LifeLinks can then turn the dollar value of your current supports into an EGL
 Personal Budget, and allocate it to your host
- Your Connector can help with this, or you can contact your LifeLinks Outcome Coordinator directly

How can I use my EGL budget?

Personal Budgets are administered by a funding host

-You can choose your host based on the services they offer that best suit you; or even split your budget between more than one.

A funding host might:

- -Purchase on your behalf
- -Reimburse you for things you have already paid for
- -Put some of your budget directly into your account
- -Provide some of their own services

What can I spend it on?

Anything that meets the purchasing guidelines! If:

- It is a disability related cost,
- That contributes to your good life,
- Is a cost effective option, and
- Is not meant to be funded by someone else

Then you can use your Personal Budget for it.

 Talk to your EGL Kaitūhono/Connector or fundinghost about what meets the guidelines.

Purchases are for a purpose

Example Purpose:

Greater independence in day to day tasks

Purchases are individual

Example Situation:

A young woman using a chair, living rurally, wants to be able to do her own washing independently and contribute to her community.
