

Google Classroom & Google Meet

Where can I find things on Google Classroom?

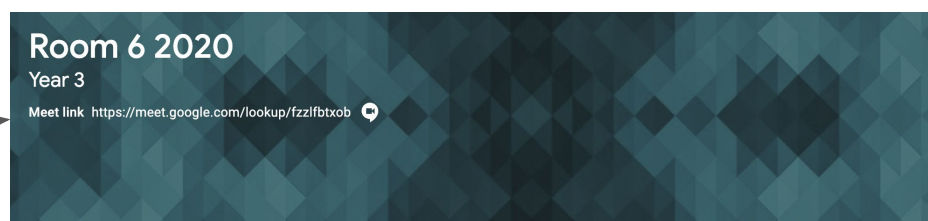

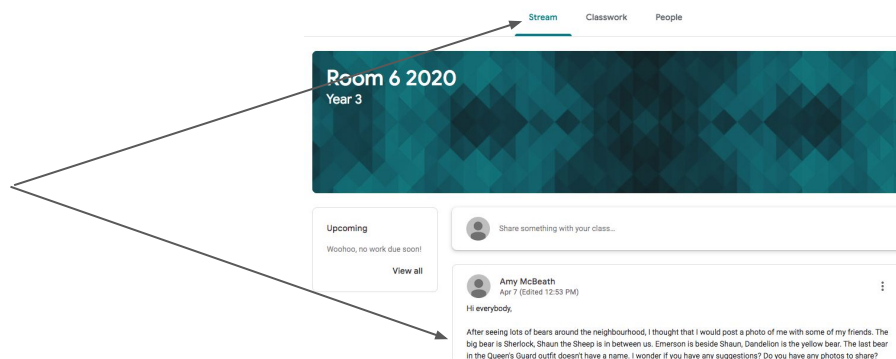

There are three main parts to Google Classroom.

1. **Stream (for messages, conversations, Google Meet link)**
2. **Classwork (this is where you'll find assignments)**
3. **People (this lists teachers and students)**

1. Stream

You will find messages and general notices on the stream. Children can join the conversation by typing in the 'Add class comment' bar underneath the post they want to respond to.

Just before each of our Google Meets, a link will pop up that looks something like this: Children will be able to click on the link to enter the meeting.

2. Classwork

This will be where you find any learning website links, as well as a range of learning activities. Clicking on any of these activities will give you some more information, and allow you to view the assignment, question, or link.
