

Enroling Personal iPads on to our school system

As part of bringing a personal iPad in to our school, we require the iPad to be enrolled on to our network.

Enrolment means students can access our school internet and provides a safe and secure online environment for students to learn.

Before arriving at Ormiston Junior College, it would be extremely helpful to back up the iPad. You can easily do this by going to **Settings** > tap on your name in the top left > **iCloud** > **iCloud Backup** > turn iCloud Backup **On** > **Back Up Now**.

When we enrol the iPad, we will sign into the student's new school-based Apple ID, back up the iPad to this Apple ID, then wipe the iPad. Having previously backed up the iPad before arriving at school means there is very little that could get lost and gives a second back up of files.

Students will be provided with an Apple iCloud account, giving them 200GB of free storage, some of which will be taken up by the back up.

In order to ensure the security of student-owned iPads at our school, and to facilitate collaborative learning we require all student-owned devices used at school to be enrolled into Apple School Manager 'DEP'. This ensures that devices brought into the school remain secure, and whilst at school, are used 'primarily' as a tool for education.

Your child's iPad must be enrolled in the Ormiston Junior College digital system if it is to be used by your child during school time for the purposes of learning. This will ensure that the iPad has internet filtering while at school including blocking of social media or other insecure networks while at school. By enrolling the iPad, the school installs several essential school owned apps at no cost to our families and it also installs software that enables assistance in device recovery if lost or stolen. All devices will be unenrolled if your child leaves school or sells or disposes their iPad.

School owned devices are available if students do not have a personal device. School owned iPads do not go home with students; they must remain at school at all times.

For any questions or concerns, please contact your child's MAC.

☐ I have read, understand and agree to the above.
