

Dear Logan Rotary,

It's funny because you have no idea who I am but I am the kid that you invested in and helped change my life. My name is Alfa Bahati and I was born in Uganda - East Africa. But I am Congolese. I am telling you this because I want you to understand who I am and how deep you really touched my heart by paying for this camp. As a kid who came from a country of poverty it's really rare for someone to just do something kind like what you have done. A week ago I didn't have any clue about Rotary clubs but here I am writing a letter to you. Such a sad world isn't it. My experience here has helped me achieve goals that I thought would be impossible. It has opened my eyes to see life through rose glasses.

So what I'm trying to say is... thank you for this opportunity. It has been a blast of a week and as I share these last moments with my new family I ask may you please do this for some other kid in Logan because if they experience what I've experienced, our youth in Logan will be a whole lot better.

This place has taught me so many life skills, and I think every teen must experience it. I'm looking forward to meeting you and telling you more about my experience. Thank you.

Yours, Alfa ~~BAHATI~~
