[Polio Today](#) → [Polio Now](#) → This Week

## This Week

### Polio this week as of 12 January 2022

#### Headlines

The Global Polio Eradication Initiative would like to wish all its partners and stakeholders a successful, healthy and happy 2022. All the very best wishes!

The WHO Executive Board is scheduled to take place on 24-29 January 2022. The Secretariat has prepared two reports, which will inform Member State discussions, namely on polio eradication, and on polio transition planning and post-certification.

On polio eradication, the [report](#) provides an update on work towards Goals 1 and 2 of the Polio Eradication Strategy 2022-2026. On transition and post-certification, the [report](#) provides an update on the implementation of the Strategic Action Plan on Polio Transition (2018-2023) within the context of COVID-19.

**Summary of new WPV and cVDPV this week** (AFP cases and ES positives):

- DR Congo: two cVDPV2 cases
- Yemen: four cVDPV2 cases

## Weekly country updates as of 12 January 2022

### [Afghanistan](#)

No new WPV1 or cVDPV2 viruses were reported this week. The total number of WPV1 cases in 2021 remains four. The total number of cVDPV2 cases remains 43.

Read the latest polio snapshot from [Afghanistan](#) to see information on cases, surveillance and vaccination campaigns.

### [Pakistan](#)

No new WPV1 or cVDPV2 viruses were reported this week. The total number of WPV1 cases in 2021 remains one. The total number of cVDPV2 cases remains eight.

Read the latest polio snapshot from [Pakistan](#) to see information on cases, surveillance and vaccination campaigns.

### [Benin](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are three cases reported in 2021.

Read our [Benin](#) country page for more information.

### [Burkina Faso](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are two cases reported in 2021.

Read our [Burkina Faso](#) country page for more information.

### [Cameroon](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are three cases reported in 2021.

Read our [Cameroon](#) country page for more information.

### [Central African Republic](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are no cases reported in 2021.

Read our [Central African Republic](#) country page for more information.

### [Chad](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are no cases reported in 2021.

Read our [Chad](#) country page for more information.

### [Congo \(Republic of\)](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are two cases reported in 2021.

Read our [Congo](#) country page for more information.

### [Côte d'Ivoire](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are no reported cases in 2021.

Read our [Côte d'Ivoire](#) country page for more information.

### [Democratic Republic of the Congo \(DR Congo\)](#)

Two cases of cVDPV2 are reported this week, both from Maniema, bringing the total number of reported cases in 2021 to 19.

Read our [Democratic Republic of the Congo](#) country page for more information.

## [Egypt](#)

No cVDPV2 positive environmental samples were reported this week. There are 11 positive samples reported in 2021.

Read our [Egypt](#) country page for more information.

## [Ethiopia](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are ten cases reported in 2021.

Read our [Ethiopia](#) country page for more information.

## [Gambia](#)

No cVDPV2 positive environmental samples were reported this week. There are nine positive samples reported in 2021.

Read our [Gambia](#) country page for more information.

## [Ghana](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are no cases reported in 2021.

Read our [Ghana](#) country page for more information.

## [Guinea](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are six cases in 2021.

Read our [Guinea](#) country page for more information.

## [Guinea-Bissau](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are 3 cases in the country which are

linked to the Jigawa outbreak in Nigeria in 2021.

Read our [Guinea-Bissau](#) country page country page for more information.

## [Kenya](#)

No cVDPV2 positive environmental sample was reported this week. There was one cVDPV2 positive environmental sample reported in 2021. The virus is linked to the Banadir outbreak in Somalia.

Read our [Kenya](#) country page country page for more information.

## [Liberia](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are three cVDPV2 cases in the country in 2021.

Read our [Liberia](#) country page country page for more information.

## [Madagascar](#)

No case of circulating vaccine-derived poliovirus type 1 (cVDPV1) was reported this week. There are 11 cases reported in 2021.

Read our [Madagascar](#) country page country page for more information.

## [Mali](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. No cases have been reported in 2021.

Read our [Mali](#) country page country page for more information.

## [Mauritania](#)

No cVDPV2 positive environmental sample was reported this week. There are five positive samples linked to the Jigawa outbreak in 2021.

Read our [Mauritania](#) country page for more information.

## [Niger](#)

No cases of circulating vaccine-derived poliovirus type 2 (cVDPV2) were reported this week. The number of 2021 cases remains ten.

Read our [Niger](#) country page for more information.

## [Nigeria](#)

No cVDPV2 was reported this week. In 2021, 385 cVDPV2 cases have been reported, along with 217 positive environmental samples.

Read our [Nigeria](#) country page for more information.

## [Senegal](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are 17 cases reported in 2021.

Read our [Senegal](#) page for more information.

## [Sierra Leone](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are five cases in 2021.

Read our [Sierra Leone](#) page for more information.

## [Somalia](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There is one cVDPV2 case reported in 2021. Read our [Somalia](#) country page for more information.

### [South Sudan](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are nine cVDPV2 cases reported in 2021.

Read our [South Sudan](#) country page for more information.

### [Sudan](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. No cases have been reported in 2021.

Read our [Sudan](#) country page for more information.

### [Tajikistan](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There are 32 cases reported in 2021.

Read our [Tajikistan](#) country page for more information.

### [Togo](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. No cases have been reported in 2021.

Read our [Togo](#) country page for more information.

### [Uganda](#)

No cVDPV2 positive environmental sample was reported this week. There are two positive samples linked to the N'Djamena outbreak in Chad reported in 2021.

Read our [Uganda](#) country page for more information.

## [Ukraine](#)

No case of circulating vaccine-derived poliovirus type 2 (cVDPV2) was reported this week. There is one case reported in 2021.

Read our [Ukraine](#) country page for more information.

## [Yemen](#)

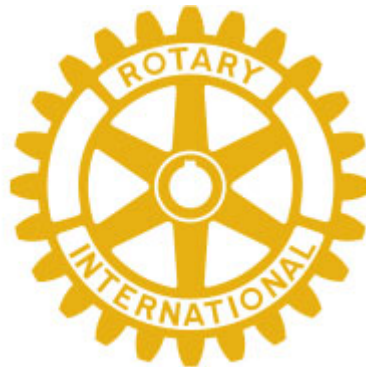

Four new cVDPV2 cases were reported in the past week, bringing the total number of cVDPV2 cases in 2021 to 10. Additionally, three cVDPV1 cases were reported in 2021.

Read our [Yemen](#) country page for more information.
