# Train with Snapper

## NEW Snapper 30-day rail pass on the Johnsonville line

If you're a frequent train user, you can load a 30-day rail pass onto your Snapper card and use it on the Johnsonville line as part of a special pilot programme.

All you need to do is load a 30-day rail pass onto your Snapper card using the Snapper iOS or Android app, or at a Snapper retailer. Please note that you can't load a 30-day pass onto your Snapper using a Snapper Kiosk.

### More convenience, same price

Snapper 30-day rail passes are the same price as a Metlink monthly rail pass, can start any day of the month and are valid for 30 days following the first use.

- To buy a child pass, you must have a Green Snapper card or a Snapper card with a valid child concession.
- This pass can be used on Johnsonville line train services only.
- It can't be used on bus services, and there are no free transfers between bus and train during the pilot.
- Metlink Transport Officers may be on-board and may check your Snapper card has tagged on. Paper and cash tickets are still accepted on-board.
- When using a pass, please remember to tag on and off for every trip.
