Community Hui invite – Playgrounds and Water - 11 August 2021

To whom this may concern,

Kia ora, my name is Robyn Mclean, I am the Network Manager at the South Dunedin Community Network.

We are holding a Community Hui for anyone and everyone who work, live or play in South Dunedin and would like to formally invite you or a representative(s) from your organisation or group and any family members or friends, to join us for the evening.

The theme for this hui is Playgrounds and Water, I have attached a poster. As well as sharing a free meal, we will be collecting everyone's ideas for a total redesign of the Bathgate Park Playground (which already has some DCC funding to be designed and initial improvements made!) and we will be having a community conversation about the history South Dunedin has had with water - we have experts sharing information with us about Ground Water and Geological History of South D, DCC Drainage and Infrastructure and the risk of flooding, climate change and extreme weather events.

We hope the information we learn on the evening may help us as a community to look forward to the opportunities that might be out there when it comes to any solutions.

It's going to be a fun night full of information that is and will continue to affect our community and having a wide range of community members participating with their ages, culture, experiences and perspectives will make a difference for all of us.

Please come along and be part of the conversations starting in our community.

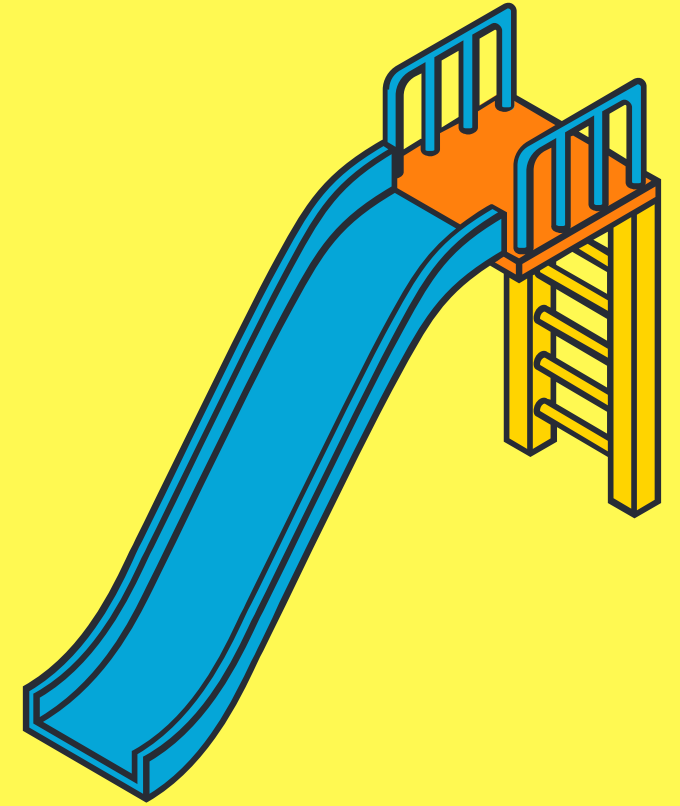

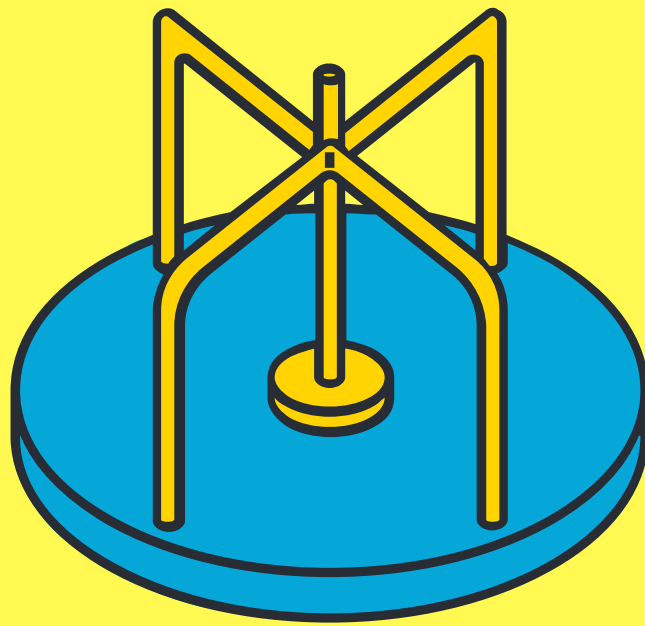

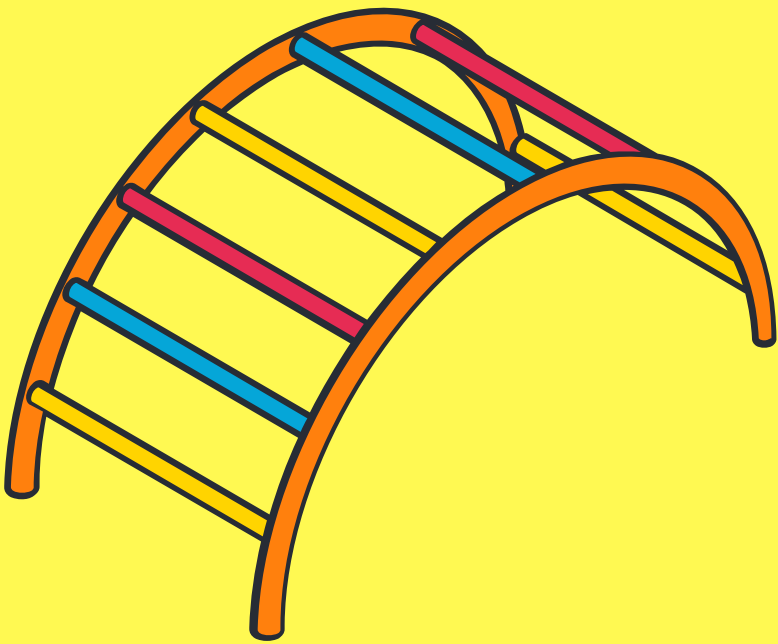

If you would like any further information or cannot make the evening and are interested in chatting with us about this, contact us using any of the details below

Ngā mihi nui, thank you,

Robyn McLean

COMMUNITY HUI WATER & PLAYGROUNDS

Join us for a community discussion with the DCC

- Share your ideas to redesign the Bathgate Park playground
- Free shared meal
- Discuss South D's history with water, and what opportunities are possible

Wednesday August 11
Bathgate Park School Hall
5:30pm-7:30pm

NZSL Interpreter Available
