

# BEST OF DDW IN IBD

NEW ZEALAND

## Dear Colleague,

We are pleased to invite you to attend The Best of Digestive Disease Week (DDW) in IBD 2022 New Zealand dinner meeting.

During this course, the most important scientific and clinical advances from DDW 2022 in San Diego, CA will be presented in an interactive format. The content was developed by a group of 40 international inflammatory bowel disease experts during the DDW congress, and will be presented by Prof. Richard Geary.

The course will be conducted with dinner, while offering you a condensed and synthesized update on the research and important clinical information presented during DDW. The goal is to provide you with clinically pertinent data, which allows you to implement new understanding into your practice and improve patient outcomes.

**Tuesday  
5 July, 2022  
6:00-9:00pm**

**QT Wellington**  
90 Cable St  
Te Aro, Wellington

## Course Topics

- Diagnosis, Prognosis, and Prevention
- Current and Emerging Therapies: Biologics & Non-biologics
- Measures of Disease Activity
- Outcomes and Adverse Events
- Epidemiology, Population Health, Vaccines, and Special Populations

## Registration

There is no cost to attend this educational activity. To accept our invitation, please register online at:

<https://jcevents.eventsair.com/best-of-ddw-in-ibd-2022-for-nz/website>

In order to ensure that the evening remains interactive, we are limiting the number of delegates that can attend, so please register today to confirm your place.
