

Bronze Duke of Ed

I found Duke of Ed extremely rewarding, and had lots of fun doing it. For DoE I had to do a skill, voluntary service, physical recreation, and an adventurous journey. For my skill, I continued learning how to play the saxophone, which was my major. I improved a lot, and got better at improvising which was one of my goals. I played football for my physical recreation, and I met heaps of new people through it. I also developed my skill set and had lots of fun. For my voluntary service I helped coach the Marist First Kicks. Coaching was a new experience for me, and I learnt lots and enjoyed it. I then had to do training and a practice and qualifying journey for my adventurous journey. I went to Stanfield Hut and Tutuwai Hut for my journeys. Both my journeys were really fun and I learnt heaps. I also met a lot of new people, which was definitely my favourite part. Overall my DoE experience was really fun and I am excited to be starting my silver award!
