

DAY 1 (AUG 29)

Time	Title	Presenter	Chair Person
08:00-08:15	Welcome and Introduction	Nam Nguyen	
	Session 1:		Vipul Aggarwal Derrick Tee SeonHo Shin
08:15-08:30	EUS tissue acquisition of solid lesions: How to optimize diagnostic yield?	William Tam	
08:30-09:00	Case 1 (EUS TA of solid lesion)		Frank Weilert Nam Nguyen
09:00-09:15	Pancreatic cystic lesions: the role of EUS evaluation and FNA	Andrew Metz	
09:15-09:45	Case 2 (EUS assessment of pancreatic cyst, including contrast and FNA)		Paul Fockens William Tam
09:45-10:00	Role of EUS in Endo-Hepatology: current status and future perspectives (excluding coiling)	Raymond Tang	
10:00-10:30	Case 3 (EUS guided PPG +/- liver bx)		Frank Weilert Nam Nguyen
10:30-10:45	Questions		
10:45-11:00	Break		
	Session 2:		Euling Neo Jeeves Naidu John Thomson
11:00-11:15	Optimizing drainage of hilar strictures: ERCP, PTC or EUS guided approaches?	Paul Fockens	
11:15-11:45	Case 4 (ERCP, EUS and ductoscopy for biliary stricture)		Philip Craig Nam Nguyen
11:45-12:00	EUS guided biliary drainage: when should it be done in clinical practice?	Payal Saxena	
12:00-12:30	Case 5 (EUS guided peri-pancreatic collection)		Frank Weilert Raymond Tang
12:30-12:45	Drainage of collections related to pancreatitis: which stent and when to consider necrosectomy?	Dan Croagh	
12:45-13:00	Questions		
13:00-13:45	Lunch		
	Session 3:		Philip Craig Mark Brooke-smith Vinh-An Phan
13:45-14:00	Management of difficult biliary stone disease: more endoscopy or surgery?	Mark Brooke-smith	
14:00-14:30	Case 6 (Large CBD stone/PD stone for EHL)		Paul Fockens Nam Nguyen
14:30-14:45	Gall-bladder drainage in medically unfit patients: PTC or EUS guided approaches?	Frank Weilert	
14:45-15:15	Case 7 (Endoscopic ampullectomy or Biliary RFA for advanced cholangiocarcinoma)		William Tam Paul Fockens
15:15-15:30	Enteroscopy guided ERCP: tips and tricks from the expert	Raymond Tang	
15:30-15:45	Case 8 (EUS guided plexus block or fiducial insertion or Oncosil implantation)		Nam Nguyen
15:45-16:00	Break		
	Session 4:		Arthur Kaffes Adrian Chung Scott Schoeman
16:00-16:15	When should I consider cholangioscopy and pancreatoscopy in HBP diseases?	Philip Craig	
16:15-16:30	Endoscopic ampullectomy: current status	Vipul Aggarwal	
16:30-16:45	Biliary radio-frequency ablation (RFA): when should I use it?	Peter Tagkalidis	
16:45-17:00	Questions		
17:00-17:15	Summary and Conclude Day One	Nam Nguyen	
19:00-21:00	Dinner Symposium		
	The Playford Hotel -120 North Terrace, Adelaide South Australia 5000		

DAY 2 (AUG 30)

Time	Title	Presenter	Chair Person
	Session 5:		John Thomson Kenneth Lim William Tam
08:30-08:50	Interventional radiology in HBP diseases: a friend or a foe?	Kenneth Chan	
08:50-09:10	Pancreatico-biliary interventions in surgically altered anatomy: Which approach?	Saurabh Gupta	
09:10-09:30	Gastric outlet obstruction: duodenal stenting, EUS_GE or surgery?	Paul Fockens	
09:30-09:50	EUS guided anti-tumour therapy: Current status	Nam Nguyen	
09:50-10:10	EUS guided celiac plexus block: When and How?	Raymond Tang	
10:10-10:30	Break		
	Session 6:		Andrew Metz Adrian Chung Mark Brooke-smith
10:30-10:50	Pancreatic ductal stone and stricture: When should I intervene?	Arthur Kaffes	
10:50-11:10	EUS guided PD drainage: when should it be done and how?	Payal Saxena	
11:10-11:30	Total pancreatectomy and islet cell transplantation for chronic pancreatitis: When to consider?	Euling Neo	
11:30-11:50	EUS guided interventions for varices and pseudo-aneurysms	Frank Weilert	
11:50-12:10	Screening "at-risk subjects" for pancreatico-biliary cancers: Who, When and How?	Nicola Poplawski	
12:10-12:20	Conclude Symposium	Nam Nguyen	
12:20-13:00	Lunch		
13:00-16:00	Hands-on Session		Moderators
	Station 1: EUS FNA/FNB		Kenneth Lim, Adrian Chung
	Station 2: EUS collection/ GB drainage		William Tam, Jeeves Naidu
	Station 3: EUS RFA (Cystic and solid lesions)		Andrew Metz, Nam Nguyen
	Station 4: Cholangioscopy and Pancreatocopy		Philip Craig, SeonHo Shin
	Station 5: ERCP, cannulation, biliary stenting, stone extraction and biliary RFA		Vinh-An Phan, Scott Schoeman
	Station 6: Nursing station on "Handling ERCP cannuli, wires, lithotripsy, balloons and needles"		Tian, Brody, Lyndall
