

## Meet Kathryn Berkett

With a Master's of Educational Psychology, currently studying for her second Masters of Applied Neuroscience with King's College London, and having certified in the Neurosequential Model of Therapeutics, Kathryn understands brain science.

Since 2009, she has been decoding complex neuroscience for audiences worldwide. Her knack for making tricky concepts click has earned her praise from even the most easily distracted learners.

Kathryn's enthusiasm for neuroscience is contagious. Her presentations aren't just theory – they're packed with real-world applications for your work and life. Whether you're a professional looking to upskill or simply curious about the brain, Kathryn's insights can reshape your understanding and approach to life.

### Qualifications:

- Masters of Educational Psychology
