

# THE SYCAMORE SPACE

The SYCAMORE tree symbolises regeneration and the potential for personal transformation. It is also historically seen as a sign of connection with the Divine.

Zacchaeus climbed the SYCAMORE tree to see and meet with Jesus. His heart was reborn, and his life changed from this moment (Luke 19).

THE SYCAMORE SPACE has been created to be a listening and reflection space where we can unpack life's worries together and reflect upon where God may be in your story. It is a place to pause, wonder, feel, and be heard.

## About Me

I am a mature student counsellor from Laidlaw College.

I am offering free counselling sessions as part of my practicum placement starting February 2025.

I have had a full and rich life full of highs and lows. I am married and have eight children.

I am happy to discuss any problematic aspect of life for you, whether you are young or old.

Please feel free to text or phone for a time. Sessions will be 1 hour and will vary among clients as to how many sessions we spend together.
