Most Anglers From 1 School Wins!

School Participation in Free Fishing Tournament – Bonus Prize Details

The school with the most angler entries into the free fishing tournament will win a special bonus school prize!

How It Works:

- ✓ Schools encourage students to enter the tournament.
- ✓ The school with the highest number of student entries wins the bonus prize.
- ✓ Parents must first register on Tangler as an Angler and then "purchase" a free ticket for the Junior Autumn Classic. (Don't worry, there's no cost!) This step is necessary because the free ticket activates the tournament on their account, allowing them to submit catches—this does not happen automatically.

Next Steps for Schools:

- 1 Confirm Participation – Respond before 7 March to let us know you're in!
- 2 Share the Event – Include the tournament details in your school newsletter.
- 3 Get Students Involved – The more entries from your school, the better your chances to win!

To confirm participation, reply to [your email/contact details].

Let me know if you'd like this formatted differently for an email or flyer!
