

Naylor Love OBHS Scholarship

Naylor Love Dunedin is proud to offer a scholarship to one Otago Boys' High School student who is passionate about pursuing a career in the construction sector.

This scholarship is designed to support a student planning to study in a construction-related field, such as carpentry, design, quantity surveying, health and safety, or other core construction disciplines.

We're looking for students who:

- ✓ Plan to study in a construction-related field and have a genuine interest in a career in construction.
- ✓ Align with Naylor Love's values of **integrity**, **leadership**, and **teamwork**.
- ✓ Are motivated and eager to learn.

How to apply:

Students will be invited to apply by outlining their intended course of study and explaining how they align with Naylor Love's values. Toward the end of the year, we will interview 3–5 shortlisted applicants before selecting the final scholarship recipient.

What you'll receive:

- ✓ \$3,000 in financial support, paid in \$1,000 instalments at the beginning of each year for a 3-year course (construction-related tertiary study).
- ✓ One-on-one mentorship during your studies, with a dedicated mentor from our Dunedin project team. This could be a Project Manager, Site Manager, Quantity Surveyor, Design Manager or trades professional.
- ✓ An opportunity to interview for a Cadetship or apprenticeship at Naylor Love Dunedin upon graduation from your study.
